## Special Conference Edition 2017

### Editors Section

This special conference edition of the e-Newsletter focuses on the upcoming 22nd Annual Scientific Meeting of the ISCP which is being held on the 24th and 25th of August at Palau de Congressos de Catalunya in Barcelona immediately prior to the ESC Congress in the same city.

All members are encouraged to contribute actively to increasing attendance at this important meeting and we hope that the participation of many of the national Governors of the Society will have meant that news of the meeting will have been spread in time for it to be part of your August plans.

**The Annual Meetings of the ISCP will be held on the 25<sup>th</sup> of August during the ISCP Annual Scientific Meeting at the Palau de Congressos. The Governors' Meeting will be**

**held at 19:00 in Room B1+B2+B3 on Level -1 followed by the General Assembly at 19:45.**

The ESC Congress takes place from the 26th to the 30th August and information on both these events can be found at the following: Annual Scientific Meeting of the ISCP: <http://www.iscp2017.com/> and ESC Congress: <https://www.escardio.org/Congresses-%26-Events/ESC-Congress>.

The ISCP will also be present during the ESC Congress in the ESC Plaza in front of the ESC stand (Booth EZ702) and would welcome your visit.

### President's Section

Dear Friends,

On behalf of the Organizing Committee it is a great pleasure to invite you to the XXII Annual Meeting of the ISCP that will be held in Barcelona on the 24th and 25th of August 2017.

We hope that this year as in previous years the ISCP Scientific Meeting will be an opportunity for the attendees to share experiences and knowledge, and become acquainted with the latest advances in cardiovascular pharmacotherapy.

We are extremely proud of the excellent speakers who have agreed to take part in the programme and share their expertise and knowledge with all those attending the meeting.

There will be ample opportunity during the scientific meeting for the attendees to meet colleagues and experts in different fields of cardiovascular medicine as well as take an active part in many of the planned events.

Several hot topics in cardiovascular pharmacotherapy will be discussed, among which atrial fibrillation, ischemic heart disease, heart failure and sudden cardiac death feature very specially.

ISCP wishes to encourage the participation of young researchers, MD and PhD students. Three Young Investigator Awards will be awarded to the three best posters in this category. In addition the 20 best posters will be published in our journal European Cardiology Review.

The meeting will take place in the Palau de Congressos de Catalunya, located close to two of the most important universities in the city (Universitat Politècnica de Catalunya and Universitat de Barcelona).

We look forward to welcoming you to the XXII Annual Scientific Meeting of the ISCP in Barcelona.

Prof Antoni Martínez-Rubio,

President, ISCP

## 22nd Annual Scientific Meeting of the ISCP

## Other ISCP News

We are very pleased to announce that the new [International Society of Cardiovascular Pharmacotherapy \(ISCP\) website](#) is now live. The website includes sections on Pharmacotherapy & RCTs, e-learning, Publications, and Expert Reviews and Opinions. A panel of expert contributors head up each section, including Professor Juan Tamargo as the editor of Drug Interactions, Professor Gheorghe-Andrei Dan as the editor of Guidelines, and Dr Pablo Avanzas as editor of Clinical Trials. We will be including talks presented at the Annual Scientific Meeting and we hope that also many of you will be contributing in the coming months

Of particular note is the e-learning section, which includes webinars from experts in their field.
